

SILVER MOUNTED GLASS BOTTLE

Clear blown glass, the body wheel-engraved with foliate sprays and a narrow band of stylized leaves near the shoulder. Fitted with silver mounts at the neck and base, each encircled by a chased laurel wreath band. The tall tapering neck terminates in an ovoid finial. French silver marks stamped on the mounts.

Good condition overall. Glass intact with light surface wear and minor scratches, etched decoration clear. Silver mounts show tarnish and small surface marks, consistent with age, but remain solid with an attractive patina.
